**Reimagining the lecture...**

“Imagine starting afresh with the problem of how best to enable a large percentage of the population to understand difficult and complex ideas, I doubt that lectures will immediately spring to mind as the obvious solution.” Diana Laurillard

The objectives to be achieved in lectures:

1. The acquisition of information
2. The promotion of thought
3. Changes in attitude

Level of performance during a lecture

# THE FLIPPED CLASSROOM

Turning Traditional Education on Its Head

Many educators are experimenting with the idea of a flipped classroom model. So what is it and why is everyone talking about it?

## WHAT IS THE FLIPPED CLASSROOM?

The flipped classroom inverts traditional teaching methods, delivering instruction online outside of class and moving "homework" into the classroom.

### THE INVERSION

### WHAT A FLIPPED CLASSROOM MODEL DOES

- Students watch lectures at home at their own pace, communicating with peers and teachers via online discussions.
- Concept engagement takes place in the classroom with the help of the instructor.

- Media enabled:
- Caves
- Capsules
- Booths
- More New Gen Learning Spaces
- More informal learning spaces
- No more computer laboratories
- Cloud computing
- Kiosks for scanning, uploading, downloading & recharging

Thank you 😊
